After the latest round of mischief from brothers Zip and Zap, their parents force them to give up their Christmas vacation and accompany them on a business trip to an obscure island. Upon losing their way deep in the woods, a dark, winding road leads the unsuspecting family to the entrance of Miss Pam's "child home," a haven for parentless children full of love and free of discipline. Zip and Zap wake the next morning to find their parents have mysteriously vanished, a plan Miss Pam says they had all along to rid themselves of their unruly boys. Suspicious of their new surroundings, Zip and Zap, joined by erratic bookworm Pippi and their new roommates Macky and Flecky, plot their courageous escape only to be caught in the middle of the island's tangled web of secrets. Based on the popular Spanish comic book characters created by José Escobar Saliente, ZIP & ZAP AND THE CAPTAIN'S ISLAND takes us on a whimsical adventure full of shocking twists that will stretch imaginations of every age. (*In Spanish with subtitles*) —A.B.

**Sunday, April 9**

11:20 AM | Code ZOOG09

Natasha has an office job at a zoo with coworkers who despise and bully her. But she finds solace in the zoo's four-legged, long-tailed inhabitants. Her life is dull, monotonous, and gray like the Russian town in which she lives. However, when she goes to her doctor for x-rays on her lower back to help figure out why she's having pain, we soon discover Natasha is keeping a rather long secret tucked into her panties. On the back side. ZOOLOGY is a modern fairy tale—so to speak—about a woman finding her Prince Charming even when she's surrounded by people who don't see her. When Natasha meets Peter, her radiologist, he accepts her right away and doesn't blink at the rather large appendage growing from her tailbone. A relationship is instantly sparked, and Peter brings something out of Natasha that transforms her from an ugly duckling to a spritely woman with new hair, new looks, and a new lease on life. But the very moment Natasha is relieved of all inhibitions, she's quickly reminded of who she really is and is not. Shocking yet enchanting, ZOOLOGY is a remarkable character study that lures you in until the tail end. (*In Russian with subtitles*) —T.W.

**Producers**—Guillaume de Seille, Maria Lavnikovich, Natalya Mokritskaya, Mila Rozanova, Ulyana Saveleva, Bénédicte Thomas **Screenwriting**—Ivan I. Tverдовsky **Cinematography**—Alexander Mikeladze **Editing**—Ivan I.
